

ANDRÉ IBARRA PÉREZ

ANDROID DEVELOPER

6 years of experience as a Software Developer. Proven background in Frontend, Backend and Mobile development using widely adopted frameworks and tools. Experienced in coordinating complex projects, collaborating across multidisciplinary and international teams. Skilled in problem-solving, delivering scalable and innovative solutions, and optimizing user experience.

PROFESSIONAL EXPERIENCE

Android Developer at EPAM/NEORIS - [Claro Video](#) (AMCO)

Nov 2025 - Present [Streaming, Entertainment] - (Native Android - Kotlin, Jetpack Compose, Bitmovin, Git)

KEY ACCOMPLISHMENTS

- Developed and implemented a revamped user interface integrated with the Bitmovin video player, introducing core features like cloud content recording and optimized media playback to enhance the streaming experience.
- Engineered adaptive WebViews with full compatibility for tablets and foldable devices, enabling seamless delivery of high-traffic World Cup multimedia content across diverse form factors.
- Contributed to critical World Cup feature rollouts, delivering specialized functionalities under tight deadlines to support massive concurrent user engagement during peak global events.
- Streamlined codebase stability and team workflow by successfully managing version control and resolving complex, high-conflict branch merges during high-stakes development phases.

Android & Frontend Developer at EPAM/NEORIS - [miOXXO](#) (OXXO)

Jul 2022 - Oct 2025 [Retail, product delivery and digital services, B2C] - (Native Android - Kotlin, Firebase)

KEY ACCOMPLISHMENTS

- Implemented event tracking and user behavior analysis, enhancing product personalization and user experience through interaction-based recommendations, increasing in-app purchase frequency.
- Developed and launched a service payment feature from scratch, supporting full and partial payments, significantly increasing app downloads and usage.
- Built and integrated a WebView to include Javascript mini-games in the app, boosting user engagement, interaction with activities, and in-app purchases.
- Optimized the deployment process to Google Play by implementing App Bundle, significantly reducing new releases times.

Android Developer at EPAM/NEORIS - [Wibe App](#) (BBVA)

Mar 2022 - Jun 2022 [Insurances, Insurtech, App] - (Native Android - Kotlin)

KEY ACCOMPLISHMENTS

- Planned and managed migration of the app to Huawei Harmony OS using the HMS Toolkit plugin and adapted dependencies from Google Services.
- Ensured continued usage for Huawei device users, contributing 30% to user retention.

Android Developer at EPAM/NEORIS - [CEMEX Go - Driver](#) (CEMEX)

May 2021 - Jan 2022 [Logistics, Transportation, Delivery Management] - (Native Android - Java - Kotlin, SQLite)

KEY ACCOMPLISHMENTS

- Ensured correct data transmission by using local storage and background processes verifying connectivity and consuming APIs, saving users 30% of time.

Android Developer at EPAM/NEORIS - (ARCA CONTINENTAL)

Feb 2021 - May 2021 [Distribution, Logistics, Sales Management, Mobile App] - (Android Nativo - Java, SQLite)

KEY ACCOMPLISHMENTS

- Accomplished the unification of three instances of the same application with different databases, improved operational processes and reduced operation and administration time.

Frontend Developer at Zangup - [Squirk](#) (Squirk)

Aug 2020 - Jan 2021 [Mobile applications, Landing pages] - (Angular, Ionic, Firebase)

KEY ACCOMPLISHMENTS

- Created a landing page that increased product visibility in the market.
- Developed mobile apps and landing pages that boosted company visibility and client satisfaction.
- Achieved customer satisfaction with delivered products, reinforcing trust and quality perception.

SKILLS

- | | | |
|-------------------|-------------------------|---------------------------|
| • Self-taught | • Persistence | • Android - Kotlin / Java |
| • Fast learner | • Team player | • Laravel - PHP |
| • Adaptability | • Initiative | • Ionic |
| • Leadership | • Proactive | • MySQL |
| • Problem-solving | • Angular - HTML / CSS | • Firebase |
| • Agile mindset | • Javascript/Typescript | • .NET |

EDUCATION

[Summer Research Program - AMC - Internet of Things at Tecnológico de Monterrey](#)

Jun 2020 - Aug 2020 [México]

[B.Sc. in Computer Systems Engineering - Instituto Tecnológico Superior de El Mante \(ITSM\)](#)

Aug 2016 - Jun 2020 [México]
